Education

Northern Arizona University

Expected Graduation: Dec. 2025

Senior Year

Major: BS Mechanical Engineering

Minor: Business

GPA 3.5

Extracurricular Activities

- American Society of Mechanical Engineering (ASME) Club
- Investing Club
- Art Club
- Japanese Culture Club

Soft Skills

- Creativity
- Time management
- Problem-solving

Technical Skills

- SolidWorks
- Microsoft Office
- 3D Printing

Objective: Looking for internship for summer 2025 to make improvement to technical skills and gain more experience.

Experience:

CWC Generator Capstone Project – Financial and testing engineering

Jan 2025 – Present

- Managing \$500+ budget, overseeing procurement and bill of materials (BOM) making sure the team's expense are spent adequately.
- Conducted efficiency analysis of power generation, using dynamometer testing and simulation tools (ANSYS Maxwell, MotorCAD) to characterize generator performance.
- modifying and designing generators to meet performance targets while ensuring manufacturability and cost-effectiveness.

Greentree Inn; Housekeeper Supervisor

May 2024 - Present

- Supervise and lead a team of 8 housekeepers, ensuring high-quality cleaning of 90+ rooms.
- Produce 15%-time efficiency to housekeepers by performing high cleaning duties and help finish their objective.
- Train new housekeeping staff on proper cleaning techniques, safety protocols, and hotel policies, leading to a 20% reduction in training time and errors.

Antelope Point Marina, Boat Mechanic Assistant

May 2022 – Aug2022

- Lead all initiative to maintain a safe working environment for everyone in the shop.
- Assisted in repair and adjustment of mercury marine boat engines using hand and power tools.
- Performed minor repairs and assigned preventive maintenance services on 20+ pontoon boats and 30+ house boats.

Projects:

Shower Glider – Greentree Inn

April 2024

- Presented with and addressed the lack of appropriate workplace materials by developing a unique solution.
- Communicated and created detailed design using SolidWorks software with manager and maintenance for approval layout in a timely manner.
- Pitched the product to management, securing approval for production and generating an initial sale of 75 units.

Tile Puzzle – ASME Game Show Escape room

Jan 2024

- Designed a novel SolidWorks tiles puzzle by leading the team to specific communication including details, deadlines, and budgets of materials used.
- Constructed the puzzle of working 50+ hours towards detailing for appearance, function, and structure.
